

MON AMOUR'S REMIXES TERMS OF USE

18/01/2022

Hey — thank you for your interest in Stromae's music!

Here you may download the stems of the song Mon amour and use them if you accept the following principles and guidelines. They are simple and clear, so let's stick to them.

FREE

The stems available here are downloadable for free.

REMIX ONLY

You are allowed to use the stems only to create your very own remix of the song Mon amour. That means that you have to do your own stuff: something new, something different, something unexpected, something that would catch Stromae's ears.

You cannot pass the stems to someone else. You cannot use them as loops or to sample Mon amour in a new track of yours.

NOTHING ELSE

The stems may not be distributed as such, individually or grouped, and they may not be released as a track that could be confused with the original recording of Mon amour by Stromae.

NON-COMMERCIAL ONLINE USE

Your remix may only be released and streamed online, wherever and as long as you want, but without making money out of it, i.e. whether by asking people to pay for it, using a platform that would ask people to pay for it or get revenues from the monetization of your remix streams (the remix will be considered as a user-generated content of Mon amour where applicable).

These are just examples but you got the point: you cannot make money directly or indirectly from the uses your remix.

WHAT ABOUT COMMERCIAL USES THOUGH?

If you want to make money out of your remix or reproduce it on tangible media (such as vinyl record for example) or if we would want to release it in commercial way, let's get in touch and try to find a deal (if any).

ATTRIBUTION

Your remix will have to feature Stromae as the primary artist and remain fully attributed to him. Your remix will be titled like this: « Stromae's Mon amour (<whatever you choose as a description> Remix » or « Stromae's Mon amour (<whatever you choose as a description> Rework »).

So your name or pseudo will only appear, if you so wish, in the <whatever you choose as a description> part of the remix title.

COPYRIGHT ETC

The master of your remix is yours (unless we would otherwise agree in case of a specific deal for commercial use — see above) but the copyright and similar rights on the lyrics and underlying composition of *Mon amour* are and remain the sole ownership of Stromae and the other rightsholders of the song for the entire world. So you are not entitled to claim any copyright share in or on the song *Mon amour* and/or your remix, which is deemed to be a version of the original song for the purposes of copyright and similar laws. In other words, you do not get an arranger or adaptor share for the remix.
